

TRANSFORMATIONAL
PERFORMANCE SOLUTIONS

Certified Maintenance and Reliability Technician

Join Dr. Nathan Wright at an in-person training experience designed to help maintenance and reliability technicians take their careers to the next level. This course prepares students to take the CMRT certification exam, and is full of practical, real-world knowledge that any maintenance or reliability professional can use in the plant today. Whether you're preparing for a new job, sharpening up your knowledge for the test, or just looking to gain valuable insights into maintenance and reliability, this course is for you. Dr. Wright has participated in the development of SMRP body of knowledge, where this certification is rooted. Join him to get his more than forty years of maintenance and reliability experience running plants just like yours.

Get Certified

Certification testing must be booked through the SMRP on their website. There are no educational or experiential pre-requisites to sit for the test, but candidates must:

- Complete and submit the CMRT application
- Pay applicable fees in advance
- Have not sat for the exam within the past six (6) months

To learn more about testing pricing, details, and study resources, [visit SMRP.org](https://www.smrp.org).

TPS Guarantee

When you complete a TPS course, we guarantee you will pass the associated SMRP exam, or get free resources and ongoing support from Dr. Nathan Wright until you do.

Topics Discussed

- Maintenance Practices
- Preventative and Predictive Maintenance
- Troubleshooting and Analysis
- Corrective Maintenance

Benefits of Attending

- Advancement toward globally recognized certification.
- Real-world stories and examples to enable course retention and application.
- Course structure and order with SMRP Body of Knowledge to streamline exam prep.
